Professional Summary

Entry-level Computer Science Engineering graduate with strong fundamentals in Python, Java, C, SQL, and web technologies. Hands-on experience through academic projects, prototypes, and self-learning. Interested in Cloud Computing, Power BI, Linux, and DevOps. Seeking IT roles in India to contribute and grow professionally.

Technical Skills

Programming Languages: Python, Java, C
Databases: SQL, MySQL
Web Technologies: HTML, CSS, JavaScript, React.js
Tools / Platforms: VS Code, Git, GitHub, Linux, AWS, Azure, Blender
Core Concepts: DSA, OOPs, DBMS

Education

Bachelor of Engineering – Computer Science and Engineering - Kingston Engineering College – Vellore, Tamil Nadu, India, 2026
CGPA: 7.8
12th –Government Higher secondary school Ammoor, Ranipet ,Tamil Nadu, India, 2022
Percentage: 89%
10th –SKV matriculation public school, Ranipet, Tamil Nadu, India, 2020
Percentage: 94%

Projects

Link Shortener Web App – FastAPI, MongoDB, Bootstrap, JavaScript

- Developed a web app with REST API support for creating short links with custom aliases.
- Implemented input validation, persistent storage, and URL routing.
- Delivered a complete backend + frontend system with real-time sharing capability.

Cattle Health Monitoring System (IoT)

- Collected and processed sensor-generated IoT data related to cattle health indicators
- Cleaned and structured raw datasets for monitoring and early illness detection
- Simulated real-time data acquisition using ESP32 on Wokwi Simulator
- Applied data preprocessing and basic anomaly detection techniques

Phishing Detection Website – HTML, CSS, JavaScript

- Analyzed and categorized malicious vs legitimate URLs
- Prepared and validated datasets for phishing detection logic
- Conducted basic exploratory data analysis on URL patterns
- Improved understanding of data-driven cybersecurity analysis

Prototypes

AR-HOST: Spatial Interaction System – Godot Engine, ARCore SDK, GDScript, Gemini API

- Developed a prototype platform hosting AR-Agents for businesses with spatial mapping, pose estimation, and multimodal interaction.
- Built a working proof-of-concept for real-time AR Agent assistants providing spatial dialogue and visual feedback.

Student Tracking System – OpenCV, Dlib, FastAPI, MongoDB

- Developed a proof-of-concept for computer vision-based campus monitoring using facial recognition.
- Implemented real-time face detection and tracking with REST API integration for detecting student locations.

Internships

WEB –Development – Shadow Fox – Aug 2025

- Gained practical experience in user interface and user experience design

Cyber Security – Shadow Fox – Oct 2025

- Gained hands-on experience in kali Linux shellcmd ,Python development, N map , and SQL injection logic implementation

Certifications & Trainings

- Cloud Engineering – Google
- Data Analytics – Google
- Microsoft Office Essentials
- Ethical Hacking – Inforsis (Springborard)

Languages

- Fluent: English, Tamil, Telugu
- Spoken Only: Tamil , English ,Telugu

Volunteer & Extra-Curricular Experience

- Design Thinking Club – Member
  - Contributed to workshops and collaborative problem-solving activities

Interests

- Coding / Programming, Vibe Coding, Learning new technologies

Soft Skills

- Problem Solving, Leadership, Teamwork, Collaboration, Communication, Time Management
